

A Courtesy Pay occurs when you don't have enough money in your account to cover a transaction, but we pay it anyway.

You have three options:

Bill payments, ACH, and Checks

This option is standard on your account. If you want this option, you don't have to do anything. Under this option, we pay your checks and online bill payments² and decline your debit card transactions³ and ATM withdrawals.

Pay all transactions

If you switch to this option, we may also authorize ATM withdrawals and debit card transactions that overdraw your account². If we do, we'll charge a Courtesy Pay fee.

Pay no transactions

If you switch to this option, we will reject all transactions that overdraw your account.³
